

Swachh Bharat Abhiyan (SBA) is a campaign in India started by Hon'ble Prime Minister which aims to maintain cleanliness everywhere in this regard our students of AVNIET conducted many awareness programs like cleaning of roads, Using Dust bins by Separation of Dry and Wet waste management and proper disposal of Plastic and its usage.

#### Solid waste management

Solid waste management in college campus is done in a systematic way ,Dust bins are provided in the whole college including the wash rooms and laboratories also, The cleaning staff collects the waste in the morning and evening at regular basis and dumped into the dumping yards at the regular basis and properly disposed.

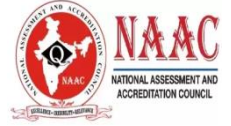

DUST BINS FOR PROPER DISPOSAL OF SOLID WASTE AT AVNIET

COMPOST PIT IN THE COLLEGE FOR SOLID WASTE MANAGEMENT

Liquid waste management

Liquid waste from the points of generation like the canteen and toilet in college is segregated and let out through common drainage facility to a waste water tank at the corner in the campus. This helps to maintain and improve ground water levels and also it stops the breeding of mosquitoes which will further lead to the dreadful diseases like malaria, Typhoid etc.

**LIQUID WASTE MANAGEMENT IN CAMPUS FOR GROUND WATER RECHARGE**

LIQUID WASTE UTILISED AND DUMPED TO GROUND FOR PROPER GROUND WATER RECHARGE
